COGNIBIOTICS

Comprehensive cognitive support formula featuring nootropic herbs, prebiotic complex, and 10 probiotic strains providing 30 billion CFU per serving*

BENEFITS

- ✓ Helps support brain health and cognitive function including memory, focus, and overall mental performance and stamina*
- ✓ Helps support levels of vitamin B 12, vitamin K, and brain-derived neurotrophic factor (BDNF), which are all essential nutrients for proper brain function*
- ✓ Helps support antioxidant pathways to maintain healthy brain cell growth and maturity*
- ✓ Helps support immune function, and the body's normal inflammatory response*
- ✓ Helps address the role stress may play in cognitive performance*

THE STORY BEHIND COGNIBIOTICS

We created CogniBiotics to help improve brain health. There are many probiotics that have been shown in research to improve various aspects of brain health from: BDNF, dopamine, serotonin and more.

CogniBiotics is a unique blend of probiotics combined with a Chinese herb blend that has been used in China for thousands of years to boost mood.

In our lab, CogniBiotics has outperformed every other probiotic blend we've tested when it comes to dopamine production.
